

Hi, I would like to say that i'am a hard working Tax Payer !
That being said i would like you fine folks at the FCC to Reject the National
Associatiion of Broadcasters petition 04-160 and support the satellite Radio
companys, Just so you know i pay for my service to xm satellite radio and i like
the channels they have i don't see were the NAB get's off with there crap but i
urge you to shut them up and say no to there petition 04-160.

think about it you go to a fast food place and order hamburger and fries and
here comes the National Association of Diet Food and says you can only buy a
salad, you are paying for it but they decide what you get. It's time to stop
BullCRAP you and i have the power to so let,s started.

Hope you are thinking about the working guy's and gals who pay for there
satellite service who choose not to listen to free over the air radio

thank you for reading this and helping a working stiff out !
